

SHUBHAJYOTI BANERJEE

Senior QA Automation Engineer / SDET

Email: shubhajyoti1995@gmail.com | Mobile: (+91) 8910690514 | Kolkata, India

PROFESSIONAL SUMMARY

Detail-oriented QA Engineer with 7+ years of experience in Functional, Automation and API Testing. Skilled in Java, Selenium WebDriver, BDD Cucumber, TestNG, REST Assured, CI/CD and Agile practices. Experienced in AI-assisted testing, defect management, regression automation, and quality engineering.

TECHNICAL SKILLS

Automation: Java, Selenium, BDD Cucumber, TestNG

API: REST Assured, Postman, Web Services, HTTP Protocols

Testing: Functional, Regression, Smoke, Sanity, Integration, System, UAT, Mobile, Cross-Browser

Tools: Jira, Azure DevOps, TestRail, Git, GitHub, Jenkins

Process: Agile, Scrum, SDLC, STLC, Defect Management

AI: Generative AI, AI-Assisted Testing

PROFESSIONAL EXPERIENCE

Sr. QA Engineer | Shyam Future Technology | Mar 2023 – Present

- Developed and maintained robust BDD Automation Frameworks using Java, Selenium WebDriver, TestNG, Cucumber, Maven, and Jenkins.
- Implemented API automation using REST Assured and Postman, validating business-critical APIs, authentication workflows, and backend integrations.
- Established CI/CD-driven test execution through Jenkins, enabling faster feedback cycles and continuous quality assurance.
- Managed source code repositories using Git/GitHub and participated in code reviews and automation framework enhancements.
- Performed OAuth 2.0 and JWT token validation, Swagger API contract testing, and end-to-end integration testing across distributed systems.
- Worked closely with Product Owners, Developers, and Business Analysts within Agile/Scrum teams, promoting Shift Left quality practices.
- Leveraged Generative AI tools to improve test design, test data generation, root cause analysis, and overall testing efficiency.

Software Test Engineer | Teamware Solutions | Apr 2022 – Feb 2023

- Performed Functional, System, Integration, Smoke, Sanity, Regression, and UAT Testing for enterprise web applications with BDD Automation Frameworks using Java, Selenium WebDriver, TestNG, Cucumber, Maven, and Jenkins.
- Implemented API automation using REST Assured and Postman, validating business-critical APIs, authentication workflows, and backend integrations.
- Analyzed business requirements, prepared test scenarios, executed test cases, and ensured end-to-end application quality.
- Worked in Agile/Scrum environments, actively participating in sprint activities and collaborating with cross-functional stakeholders.

- Managed defects through the complete defect lifecycle using Jira, ensuring effective communication and resolution tracking.
- Supported release validation, production deployments, and post-release testing activities.
- Contributed to requirement reviews, test estimation, risk assessment, and quality reporting activities.

Senior Executive| Pacific BPO| Sept 2021 – Feb 2022

- Worked as a AR Executive on Healthcare process

QA Tester | Wipro | Dec 2018 – Sep 2021

- Web and mobile testing in Healthcare domain
- Test planning, estimation, execution and defect management
- Cross-browser testing and stakeholder collaboration

PROJECTS

- TCMS (Trustea Code)
- SFT EVOLVE - HRMS
- Flex Forecast
- QE Canvas
- MDIV Application

EDUCATION

B.Tech / B.E. - Dr. BC Roy Engineering College, Durgapur
